

I am writing because I am very upset about the abuse of power that Sinclair Broadcasting has demonstrated in its decision to air this propaganda (from a group that has already produced libelous anti-Kerry commercials).

Their wish to use the public airwaves, which they license from the government, to attempt to influence the election should not be allowed.

As a concerned American, I wish that the FCC would look into this matter and sanction Sinclair for this breach of their contract with the public, who own the airwaves.

Sincerely,

Jason Wolf
